

Welcome to AL BARETTO, a corner of pleasure immersed in the greenery of the Parkhotel Delta where the art of classic mixology merges with innovation.

Our vision requires that the drink be like a work of art and that it has the specific function of arousing a feeling in the "spettatore", of creating a connection, provoking a reaction and of involving him emotionally.

Experimentation, a fundamental element of mixology, requires that "the artists" know the potential of each single ingredient used, generating new ideas and trying to overcome the limit of the imaginable.

Our passion for hospitality is placed at your disposal to make every moment unforgettable.

AL BARETTO Team

DELTA SIGNATURE ON CLASSIC

We present a selection of masterpieces from the history of mixing revisited in Delta style.

The primary concept of these mixtures is to blend the excellence of local and international spirits

with raw materials reworked and transformed with simple but at the same time innovative preparation techniques.

We wanted to introduce the concept of food pairing into these preparations that allowed us to create unusual culinary combinations but with a surprising final result capable of exceeding every limit of the imagination.

World of Whisky

IN QUOTA Villa de Varda

IN QUOTA Villa de Varda Whiskeys are born in Trentino Alto Adige from a unique and ambitious project involving the Dolzan family, a producer of spirits according to tradition for over 170 years, and Ronald Zwartepoorte, an expert in high-quality whisky and an international point of reference on the subject.

An exclusive and pioneering product, Il Whiskey di Montagna.

The possibility of making the best use of the raw materials that this territory offers, such as the water from the Dolomite spring, the cereals grown at altitude and the centuries-old experience in the production of grappa with discontinuous stills and in the aging of its own spirits give life to an Italian-style whisky, which tells the story of the territory in which it is born with every sip.
